

Names Luis Guillen Amin Senhour Tri Cao Vatsav Sethupathi

1. Data collection:

2. Produce two summary statistics based on the data above.

Average: 1.25
Max = 3
Min = 0

3. Write a 1-2 sentence explanation of the story your data tells like you would describe it over the phone.

This data tells us the average amount of siblings each person has is 1.25 siblings. It helps us to find that Tri has the most amount of siblings (3) and Luis has the least amount of siblings (0).

Once you are done screen capture this page and turn it in to Gradescope (1 submission/group) making sure that all group members are tagged in the submission.
